## **Installation and Implementation Plan**

The Alpha Phi Omega Online Tutorial designed by Team Flex for Alpha Phi Omega will be a combination of content and assessment modules accessible via the Internet. The modules will be hosted on the Alpha Phi Omega server and can be found at [www.api.org](http://www.api.org). A Flash player is required to view the modules. Learners can access the modules by using any computer with Internet access with installed Flash players. The modules will be used to accompany the Alpha Phi Omega level one zero volunteer training.
